

Cover corrections — *It's Not Your Fault*

The maroon-and-gold design is approved in look. These are the fixes to make it print-ready.

Grace — the art direction is beautiful and the front crossout is correct. Below is everything needed to make the wrap uploadable to KDP. Items in **red** are must-fix before print.

1 · Title must read the same everywhere

The registered title is “**It’s Not Your Fault.**” Right now the **front** reads that (crossout), but the **spine** and **back copy** say “It’s Not All Your Fault” — a different title. They must match.

- **Spine:** change to **IT’S NOT YOUR FAULT · ROB BRIZZI** (drop “ALL”).
- **Back-cover copy:** where it italicizes the title, write ***It’s Not Your Fault*** (drop “All”).
- **Front stays as-is:** the crossout device is the only place “ALL” appears.

2 · The crossout can never flip — or vanish

The front reads **IT’S Not ~~ALL~~ YOUR FAULT** → *It’s Not Your Fault*. **Cross out “ALL” only** — a strike through “NOT” would read “*It’s Your Fault.*”

Crossout color — **white is approved** (Grace’s call), with one condition: it must stay **unmistakably visible, even at 1-inch thumbnail size**. Because “ALL” is also white, a plain white X over white letters can disappear — and a crossout you can’t see turns the cover into “*It’s ALL Your Fault,*” the opposite of the book. To make white read, either **dim “ALL” to soft gray/gold** so the white X separates, **or give the white X a thin dark outline / drop-shadow**. Test: shrink to 1” tall — if you can still instantly see it’s crossed out, it’s good.

3 · Barcode / ISBN

The mockup shows **979-8-9923455-0-1** — that is **not** the book’s ISBN.

- Real paperback ISBN: **979-8-9966446-0-5**
- **Remove the printed barcode.** Leave a blank **2” × 1.2” white zone** in the lower-right of the back panel — **KDP prints the correct barcode there itself**. Do not hard-code a barcode graphic.

4 · Exact print dimensions (KDP, premium color, 261-page interior)

ELEMENT	SPEC
Full wrap (flattened)	17.8626 × 11.25 in (5359 × 3375 px at 300 DPI)
Spine width	0.6126 in, centered (261 pp × 0.002347)
Bleed	0.125 in on all four outer edges

Front trim	8.5 × 11 in
Resolution / color	300 DPI, CMYK for print, fonts embedded/outlined
Barcode zone	2 × 1.2 in white box, lower-right back panel, left blank

Note: spine width is tied to page count. This is for a **261-page** interior. If the page count changes, spine = pages × 0.002347 in, and the wrap width shifts — ask before final export.

5 · Front-panel text (correct wording)

TITLE (CROSSOUT DEVICE)

IT'S ~~Not ALL~~ YOUR FAULT

SUBTITLE

Helping Caregivers with Aging Loved Ones ← **already correct**

AUTHOR LINE

ROB BRIZZI

with Hope Brizzi, PharmD

From the Author of The Cardinal's Promise

("consulted by Hope Brizzi, PharmD" is fine too — but the inside of the book credits her as **"with Hope Brizzi, PharmD · Contributor & Project Consultant,"** so "with" keeps it consistent.)

6 · Back-panel copy (approved — use this text)

TOP HOOK (RED ITALIC)

You're not failing. You just haven't been shown how.

HEADLINE

Caring for an aging parent is overwhelming — nobody hands you a map.

BODY

Color-coded by urgency — Act Today, Watch Closely, Plan Ahead — *It's Not Your Fault* helps your family get organized, make informed decisions, and face the healthcare system with confidence, even on your worst day.

INSIDE YOU'LL FIND HOW TO

- Know what to do first when a parent declines — organized by urgency
- Spot the Medicare "observation vs. admitted" trap that decides who pays for rehab
- Protect savings and the home before the Medicaid five-year look-back
- Compare every care option — home health to hospice — and how families actually pay
- Find prescription help that looks at income, not your house
- Protect yourself from burnout — and the mistakes that cost families the most

PUBLISHER MARK

(Grace’s draft bio — “a caregiver, advocate, and author” — drops Rob’s CDP and hospice/senior-living background, which is his credibility with families. The bio above puts it back.)

⚠ One decision to confirm with Rob before final export: the title is **“It’s Not Your Fault”** (registered ISBN + all metadata). If Rob instead wants to retitile the book to “It’s Not All Your Fault,” that changes the ISBN record and Amazon metadata — and the front would no longer cross out “ALL.” This spec assumes the registered title stays as-is.
