

*You're doing your best.
That should be enough.*

Caring for an aging parent is overwhelming — nobody hands you a map.

Color-coded by urgency — **Act Today, Watch Closely, Plan Ahead** — *It's Not Your Fault* helps your family get organized, make informed decisions, and face the healthcare system with confidence, even on your worst day.

- ◆ Know what to do first when a parent declines — organized by urgency
- ◆ Spot the Medicare “observation vs. admitted” trap that decides who pays for rehab
- ◆ Protect savings and the home before the Medicaid five-year look-back
- ◆ Compare every care option — home health to hospice — and how families actually pay
- ◆ Find prescription help that looks at income, not your house
- ◆ Protect yourself from burnout — and the mistakes that cost families the most
