

You're not failing. You just haven't been shown how.

Caring for an aging parent is overwhelming — nobody hands you a map.

Color-coded by urgency — Act Today, Watch Closely, Plan Ahead — *It's Not Your Fault* helps your family get organized, make informed decisions, and face the healthcare system with confidence, even on your worst day.

Inside you'll find how to:

- + Know what to do first when a parent declines — organized by urgency
- + Spot the Medicare "observation vs. admitted" trap that decides who pays for rehab
- + Protect savings and the home before the Medicaid five-year look-back
- + Compare every care option — home health to hospice — and how families actually pay
- + Find prescription help that looks at income, not your house
- + Protect yourself from burnout — and the mistakes that cost families the most
