How to use this with the book

Keep this page with your copy of *It’s Not Your Fault*. Where a chapter says “call your state Medicaid office” or “ask which portable-order form your state uses,” this is the New Jersey answer. Start with the **ADRC (1-877-222-3737)** when you’re not sure who to call — its whole job is routing New Jersey families to the right door.
