

Pennsylvania

The Pennsylvania edition of It's Not Your Fault — every office, program, and form, named.

This companion names the **Pennsylvania** version of every office the main book points to, plus a few benefits unique to the Keystone State. Numbers were current at press time — confirm before relying on them. The state your parent lives in is what governs.

How to use this with the book

Keep this page with your copy of *It's Not Your Fault*. Where a chapter says “call your state Medicaid office” or “ask which portable-order form your state uses,” this is the Pennsylvania answer. Start with your **Area Agency on Aging** or **PA Link (1-800-753-8827)** when you're not sure who to call — their whole job is routing Pennsylvania families to the right door.
